Baker-Polito Administration Launches Summer Nights Initiative for Youth
2017 marks third-year of the program to extend operating hours and increase programming at city parks across the Commonwealth

BOSTON— Governor Charlie Baker was joined by Boston Mayor Martin J. Walsh, Energy and Environmental Affairs (EEA) Secretary Matthew Beaton, and Department of Conservation and Recreation (DCR) Commissioner Leo Roy to announce the 2017 Summer Nights Initiative to increase programming and extend the hours of operations at select pools and athletic complexes in areas across the state. The Baker-Polito Administration started the Summer Nights Initiative in 2015, benefitting youth within the cities of Boston, Chicopee, Everett, Fall River, Holyoke, Lawrence, Malden, Springfield, and Worcester during summer evenings.

"While Massachusetts youth enjoy their summer vacation, the Summer Nights Initiative offers recreational programs and extended hours at our pools and parks to provide a safe and fun place for all," **said Governor Charlie Baker**. "With over 450,000 acres of public land, including several parks within city neighborhoods throughout Massachusetts, our parks offer perfect locations for kids to get outside and explore nature, many of which are right in people's backyards."

"The Summer Nights Initiative has become an important yearly program for our Administration over the last three years, impacting the lives of children and their families in cities across the Commonwealth," **said Lieutenant Governor Karyn Polito**. "By extending the hours of operations at highly visible and frequently utilized facilities, we are able to help promote a healthy, active lifestyle at an early age for our children."

"The Summer Nights Initiative is a great resource for the youth of Boston," **said Mayor Martin J. Walsh**. "In the summer, it's especially important to help kids stay active and safe. We're doing that through programs like Summer Learning, Summer

Jobs, and Boston Centers for Youth & Families programming. In order to keep kids engaged in their communities, they need safe places to have fun both day and night, and DCR's Summer Nights Initiative provides more opportunities for kids in Boston to do just that. We are thrilled to welcome this valuable program back this summer."

The DCR has also commenced its popular Free Family Flicks movie series. Movies will be shown at Fall River Heritage State Park in Fall River, the Martini Memorial Shell in Hyde Park, Salisbury Beach State Reservation in Salisbury, Sylvester Baxter State Park in Somerville, the Charles River Esplanade's Hatch Memorial Shell in the Back Bay, Lowell Heritage State Park in Lowell, and Pope John Paul II Park in Dorchester. Featured movies include Secret Life of Pets, Sing, Jungle Book, Finding Dory, Moana, Lego Batman, Dr. Strange, and Star Wars Rogue 1. The Free Family Flicks program provides family fun and entertainment at no charge (parking fees may apply depending on location).

"The Commonwealth's state parks system provides unique and exceptional opportunities to get out outside, explore the natural world that surrounds us, and enjoy some of Massachusetts best and most diverse greenscapes, such as parks, reservations, forests, and athletic facilities," **said Energy and Environmental Affairs Secretary Matthew Beaton**. "Ensuring children have access to the environment is important to both their physical and mental growth, and I am pleased that the Summer Nights Initiative will once again provide excellent recreational opportunities that will surely be enjoyed all summer long."

"The Baker-Polito Administration continues to prioritize a high level of access within the state parks system for people of all abilities, ages, and locations to enjoy and benefit from," **said DCR Commissioner Leo Roy**. "The Administration works closely with several partners to provide excellent and unique programming for the Summer Nights Initiative, and I thank them for their continued dedication and support."

"It's my pleasure to join Governor Baker, Mayor Walsh and DCR to launch this vital summer program that helps to revitalize and activate our parks and make them a strong and integral part of the fabric of our community for youth activities during the summer," **said State Representative Russell Holmes (D – Mattapan)**.

"I commend the Governor on forming these partnerships with the Urban League of Springfield and other local organizations that serve our urban communities so well," **said State Representative Bud Williams (D – Springfield)**. "By providing these organized activities, we will take young folks off of the street and put them into situations where they will develop as individuals."

"I'm always happy to see the state working together with local organizations such as the Lawrence Boys and Girls Club. Ensuring that youth are involved in positive summer activities is very important to me and I am especially excited for these wonderful programs that our youth in the City of Lawrence can participate in," **said State Representative Frank A. Moran (D-Lawrence)**.

The extension of summer operations will continue through August 17, 2017. Below is a full list of extended hours and programming for additional youth access.
